Installing the Actions

- Double click a ***"f64 Diamond Gradient Magic.atn"*** file and it will auto install in Photoshop

- Drag and drop the .atn into the Actions palette *(Alt+F9 or Option+F9 on Mac)* and it will auto install in Photoshop

- Go to the menu in the Actions Palette *(Alt+F9 or Option+F9 on Mac)* and select "Load Actions" and navigate to the appropriate folder that contains the action you'd like to load

Installing the Gradients

- Double click a ***"Blake's Sunset Gradients.grd"*** file and it will auto install in Photoshop

- Or Import them from within the Gradient Editor.

- Stay Inspired -
